Before any of these commands can be shouted on a soundstage, somebody s got to come up with a great idea that everyone else will want to be a part of. Whether their job is to cry on cue, focus the camera, or ensure that none of the paychecks bounce, they re all in the picture because of one person - the screenwriter whose imagination gave them an exciting starting point. Could that person be you? Within these pages, you ll not only discover what skills are required to write a screenplay for today s market but also what kind of factors dictate which ideas get gobbled up faster than a holiday turkey and which ones go the way of a fruitcake. You ll also learn how to acquire and adapt pre-existing material for a screenplay; how to find markets for the kinds of films you want to write; how to predict what tomorrow s audiences will want to see; and how to work successfully with partners, agents, script consultants and independent producers. Most importantly, Could It Be A Movie reinforces the fact that not every great idea translates well to the silver screen. Perhaps a different medium - plays, novels, short stories - could be your true calling as a storyteller. This is the book that will help you discover which road on your wordsmithing journey will take you where you want to be.
