Reviews

This book is great. I have go through and so i am confident that i will going to read through once again again in the future. I am just easily can get a satisfaction of looking at a written book.
(Miss Vernie Schimmel)

BEYOND DOLBY (STEREO): CINEMA IN THE DIGITAL SOUND AGE

Indiana University Press, United States, 2010. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Since digital surround sound technology first appeared in cinemas 20 years ago, it has spread from theaters to homes and from movies to television, music, and video games. Yet even as 5.1 has become the standard for audiovisual media, its impact has gone unexamined. Drawing on works from the past two decades, as well as dozens of interviews with sound designers, mixers, and editors, Mark Kerins uncovers how 5.1 surround has affected not just sound design, but cinematography and editing as well. Beyond Dolby (Stereo) includes detailed analyses of Fight Club, The Matrix, Hairspray, Disturbia, The Rock, Saving Private Ryan, and Joy Ride, among other films, to illustrate the value of a truly audiovisual approach to cinema studies.
