Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Elementary Mechanics of Solids and Fluids I hope that this book may prove useful to students, who without possessing much knowledge of Mathematics desire to read Mechanics as an introduction to Physics. Those who are acquainted with the elements of Algebra and Geometry will, I think, meet with no serious mathematical difficulty; they may, however, find it convenient to read first the geometrical theorems at the end of Chapter I. Some propositions on the geometry of the ellipse are given in Chapter VI, in order to render the discussion of the law of gravitation more complete. My thanks are due to Mr. J. Walker, M.A., of Christ Church, for his kindness in reading the proof-sheets, and to Professor J. V. Jones, M.A., for many valuable suggestions. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
