Excerpt: . . . replacement for the chromate battery. The lithium battery is lighter, smaller, and provides 35 faster ignition and greater energy capacity. Guidance and Control Once the seeker has acquired the target, the rules of proportional navigation are used to guide the missile until impact. The principle of proportional navigation is relatively simple, and has been used to guide homing missiles since the 1950s. The missiles seeker locks on to the target and establishes a line of sight at all times. The Stingers tracker computes, in Cartesian coordinates, a primary and a secondary vector related to the center 36 point, and uses simple trigonometry to find the deviation and plot a course to intercept. The tracker then gives signals to the guidance circuits, which manage the control surfaces. Control is effected by adjusting the position of the two moveable canards at the front of the airframe. For the Stinger, this guidance process is what is known as open loop. Once the guidance system...
