When the security director of the powerful corporation Nebulaco dies under mysterious circumstances, courier Sai Collins has one last top-secret delivery to make on his behalf. Sai has come a long way from her street-kid childhood, but she has her secrets namely that she s a cyberpsi, a computer telepath who can connect to the grid without hardware. A talent she s going to desperately need. Because when she arrives at the drop point on a neighboring planet to make the delivery, she s ambushed by heavily armed goons and barely escapes with her life. Sai soon realizes that she s in the middle of something far more complex and far-reaching than she ever imagined, and if she s going to make it out of this alive, she ll have to turn to a couple of unlikely heroes: the charming, down-on-his-luck pilot Hank Jensen and jaded private investigator Mike Chandler, who follows no one s rules but his own.
